PASSENGER E-VEHICLES WITH HIGH PERFORMANCE

We are a highly esteemed organization in the industry, well-known for our in-house manufacturing and trading of an exceptional range of Electric Rickshaws. We take immense pride in our reputation for delivering unparalleled services and products, which are highly appreciated for their outstanding performance.

CAN RUN FROM

90 - 150 KMS

IN SINGLE CHARGE

Our stylish and resilient rickshaws are crafted using only the finest raw materials in compliance with the industry's exacting quality standards. We utilize the latest techniques and equipment during the manufacturing process to create rickshaws that are designed to be robust and damage-resistant, making them ideal for use on both rough and smooth terrain.

To ensure our products meet the highest standards of quality, we subject them to rigorous assessments by a team of professional auditors. This guarantees that our clients receive flawless products that meet or exceed their expectations. Additionally, we conduct regular training sessions to ensure our employees stay up-to-date with the latest developments in the market, thus maintaining our commitment to excellence.

BEST IN CLASS FEATURES FOR PASSENGER E-VEHICLES

Specifications:

Motor

Type: Brushless DC Motor
 Max. Power: 1000 W
 (1660 W Tested By ICAT)
 Voltage: 48 V / 60 V

Controller

Capacity: 50 A, 24 Mosfets
 Voltage: 48 V / 60 V

Suspension

Front: Telescopic Hydraulic Shockers
 Rear: Double Movement Leaf Spring With Hydraulic Shockers

Tyre Size

Front: 3.75-12
 Rear: 3.75-12

Brakes

Front: Lever Operated, Drum Type
 Rear: Brake Paddle Operated, Drum Type
 Parking: Mechanical Hand Lever Operated

Battery

Type: Lead Acid
 Capacity: 110Ah - 150Ah
 Type: Lithium Ferrophosphate ions (LiFePO 4)
 Capacity: 100Ah - 105Ah

Charger

Type: Smpps With Voltage Fluctuation Protection
 Charging Time Lead Acid: 8-9 Hours
 Charging Time Lithium Power: 5-6 Hours
 Output: 48 /60 V - 16/18 A

Performance

Maximum Gradability: $\leq 7^\circ$
 Turning Radius: 2.4 Mtr
 Speed: ≤ 25 Kmph

Capacity

Seating Capacity: Driver
 Load Capacity: 400 Kg Approx

Overall Dimensions

Length: 2780 mm
 Width: 990 mm
 Height: 1468 mm
 Wheel Base: 2100 mm
 Ground Clearance: 210 mm
 Gross Vehicle Weight: 812 Kg
